Administrative Services Manager Degree
Graduates in Demand in Today’s Office

In today’s business office, administrative professionals might be asked to analyze and identify customer trends to help with strategic marketing. They also use social media and internet tools, such as Skype, for communications with clients and business partners.

A new associate degree program at Lower Columbia College prepares graduates for a career as an Administrative Services Manager, projected to have growth potential for both the short and long term, according to the State’s Employment Security Office.

Business owners and supervisors are spending more time in meetings and rely on their staff to provide administrative services that require a wider technical skill set than in the past, explains LCC instructor Nadine Lemmons.

Advanced skills taught in the new program include electronic records management and project management, team building and advanced spreadsheet training to do data analysis. Students also learn technical writing skills in order to accurately share information and data, including creation of charts and graphics.

The degree was developed in conjunction with Washington’s Center of Excellence in Information Technology and then reviewed by the advisory board for LCC’s Business Technology program. Members, who work in local industry, confirmed that skills taught in the new program match those required in today’s workplace.

The skill set is deep enough that it applies to administrative services work in any industry, Lemmons said. This diversity helps graduates find employment in a wider range of career fields, from medical to legal to general offices. In addition, the degree is designed to prepare graduates for bachelor degree programs in Washington public universities, including Central Washington University and the Western Governor’s University – Washington online degree program.

For a list of degree requirements, visit lowercolumbia.edu/programs and select the Administrative Services Manager - Associate in Applied Science link under Business Technology.

Nadine Lemmons
Starting as a first generation, non-traditional college student, Nadine brings 20 years of administrative and management experience in various business industries to her classroom. “Hard work, perseverance, and the love of learning is what got me my dream job; that is what I want for our students too.” She holds an MBA from Marylhurst University and is a Certified Microsoft Office Master.

Mark Gaither
A professional educator for 25 years, Mark began exploring traditional and computer-based instruction while working with at-risk, inner-city youth. At the same time, his private business focused on developing computer-based instructional solutions for business and industry with an emphasis in healthcare training. He holds a MA in Education in Computer-based Curriculum and Instruction from the University of Phoenix.

Art Classes in Sculpture, Journaling New This Winter

Students and community members with a passion for fine arts will have two new classes to explore winter quarter at LCC.

Beginning Sculpture: Art in Context (ART 251) is a 3-credit, beginning sculpture class that will help students choose an idea and develop it into a pleasing 3D form. Students will explore the function of art in our culture and in our personal lives, and further understand how they see the world around them. Students will create sculpture from a variety of media including plaster, paper, and found objects. The class will meet Monday and Wednesday mornings, 9 to 11:30, in the Main Building, Room 107.

Artists’ journals fascinate everyone. In Journaling for Artists (ART 127) students will record their every day experiences as well as information they may want to draw upon later. Learn how to record each project’s journey and progress while developing artistic ideas that will eventually turn into works of art. This 3-credit class will meet Mondays and Wednesdays, 12:20 to 2:50 p.m., in the Main Building, Room 107.

The instructor for both classes is Marcia Hageman, MFA, MSW. Marcia is known for her figurative sculpture in cement, plaster, and wood, and psychological portraiture in mixed media. She has kept an artist journal for many years.
**How to Register**

Go to lowercolumbia.edu/registration to access the following steps

### Current Students

Registration begins November 18, for students who have attended LCC within the last year.

1. **Find out your earliest registration date/time** online at lowercolumbia.edu. Student ID Number and Global PIN required.
2. **Meet with your program advisor** to plan your Winter class schedule and get your Quarterly Registration PIN. If you have not received an email listing your program advisor, contact the Entry Center.
3. **Register** online or in person at Registration. Students taking more than 18 credits must register in person.
4. **Pay your tuition and fees** by Friday of the week you register. You may pay online with a credit or debit card or in person at the Cashier. See Delayed Tuition Payment options on page 7.

### New Students

Registration begins November 25 for new students. Staff assistance and computers are available in the Student Center.

1. **Apply for admission**
   Online or in person at the Entry Center.
2. **Apply for financial aid, if needed.**
   Go to lowercolumbia.edu/finaid for instructions and forms. More information on page 7.
3. **Determine your program**
   Visit the Career Center to take an interest assessment, explore careers, and access career resources. The results will help you choose a program leading to a career that is right for you. At the Center, or from your own computer, print out a copy of the program planner(s) for the program(s) of study that interest you. Go to lowercolumbia.edu/programs.
4. **Practice and take a placement test**
   Students planning to earn a degree or certificate or transfer to a four-year institution need to have skill levels assessed before registering for classes. Placement assessments are given at the Admissions Center testing lab. Testing takes approximately 3 hours. Recommendations based on your results help you select the right classes. Find practice materials online.
5. **Sign up and attend orientation for advising and to register**
   Make an appointment by contacting the entry center. Advisors will be available and you can also register for classes during orientation. Do some advance planning: bring your program planner(s) and placement test scores, browse the online class schedule, and map out the time you have available for classes and studying.
6. **Pay your tuition and fees** by 5 p.m. Friday of the week you register. You may pay online with a credit or debit card or in person at the Cashier in the Admissions Center. If you need more time to pay, see Delayed Tuition Payment options on page 7.

### Not Planning a Degree or Certificate?

Register at Registration starting November 25. Pay your tuition at the Cashier, pay online or set up a payment plan online.

**Non-credit classes:** Continuing Education class listings and registration information begin on page 37.

### Class Full? Get on the Waitlist!

When a class is full, you may choose to be added to the waitlist. If openings occur through the third day of the quarter (January 8), you’ll be automatically moved from the waitlist into the class. Only students on the waitlist may fill open seats.

Being on the waitlist does not guarantee that you’ll get in, or that a new section will be made available. Tuition and fee charges will not include waitlisted classes until you are registered in them. Check your waitlist status at lowercolumbia.edu/online-services

Cashier, the Entry Center, Financial Aid, Advising, Registration, and Testing are located in the Admissions Center.

Questions? Contact the Entry Center, entry@lowercolumbia.edu, phone 442.2311 or toll-free 1.866.900.2311.
ONLINE REGISTRATION & PAYMENT

Go to lowercolumbia.edu/registration to access the following steps:

1. Check Your Registration Date and Time
Choose registration date/time. Log in with your Student ID Number and Global PIN. Schedule an appointment and meet with your Program Advisor 1-2 weeks before you register to select your classes and receive your Quarterly Registration PIN.

2. To Register Online
Besides your class list, you’ll need your Student ID Number and Quarterly Registration PIN. For classes that require instructor permission, you’ll need an Entry Code.
Select Register Online. Follow the instructions and complete your schedule. Don’t forget to print your schedule before you leave. If you attempt to register for two classes that meet at the same time or overlap, the computer will block your registration.

3. Pay Your Tuition or Set Up a Payment Plan Online!
Paying online is easy and secure. You can use your credit or debit card to pay in full, or set up an automatic payment plan. If you register online, you can pay at the end of your registration session or return later. See Delayed Tuition Payment Options, page 7.
If you register in person, you can still pay online. You’ll need your Global PIN, received when you register for the first time.
Tuition and fees must be paid by Friday of the week you register.

4. Add or Drop Classes
You may add or drop classes online through the third day of class. Select Register Online. Follow the instructions for adding or dropping a class. Don’t forget to print a copy of your revised schedule. You can also handle any adjustments to your tuition or fees online.

When can’t I use Online Registration?
1. Continuing Education courses
2. GED/ABE/ESL courses
3. High School Completion
4. Independent Studies
5. Employee waivers, Running Start, or National Guard waivers
6. If you last attended LCC more than one year ago
7. If you are taking more than 18 credits

Online Registration is available
November 18–January 8.

Entry Codes
An Entry Code is a five digit random number issued to students by the instructor of the class as authorization to register for classes requiring “Instructor Permission.” Once you have used an entry code, the registration computer will not accept it again.

Use Online Services
Here are some of the things you can do online:
- Pay your tuition and fees
- Set up a payment plan
- Check tax credit information
- Change your Global PIN
- Print your class schedule
- Print out an unofficial transcript
- Check waitlist status

Resident Students (Column A)
Washington resident students must verify that they have lived in Washington for one year and have established residency in the State of Washington, including US Citizenship. If your residency cannot be determined at the time of registration, you will be required to pay non-resident tuition and fees. Ask about residency at the Registration Office, 360.442.2370. Complete residency rules are detailed in RCW 28B.15.012.

Even if you are not a permanent resident or US Citizen, you may still qualify to pay in-state tuition if you have graduated (or will) from a Washington state high school. Contact the Registrar at 360.442.2371.

Oregon Border County Residents (Column B)
Residents of Oregon Border Counties (Columbia, Clatsop, Multnomah, Washington) for 90 days or more may pay this rate.

US Citizens & INS Permanent Residents (Column C)
Individuals who have lived in the State of Washington for 90 days or more and who are US Citizens or Permanent Residents, as defined by the INS, may pay this rate.

Other US Citizens and Foreign Students (Column D)
Those who are not eligible to pay the “Resident Students,” “Oregon Border County Residents,” or “US Citizens and INS Permanent Residents” rates, above, pay this rate. (See Column D.)

Veterans (Column E)
Special rates are available for some Veterans. See the Veterans’ Office in the Admission Center, or call 360.442.2393 for eligibility information.

Special Rates for Senior Citizens
If space is available after the first class meeting, Washington residents 60 or older may audit up to two classes for $2.50 per class plus $1.20 per credit facilities use fee and applicable lab fees.

Applying for Financial Aid

Who is eligible?
To qualify for Financial Aid you must:
- Have a high school diploma or GED
- Be a U.S. citizen or eligible non-citizen
- Be registered with the Selective Service (if required)
Other eligibility issues may be identified in the FAFSA process.

What financial aid is available?
Grants, loans, work-study employment and scholarships are available to help cover college costs. Special aid programs are also offered for veterans, dislocated workers and first generation students.

How to apply
Students apply for financial aid online through the LCC website. Computers are available for student use in the Admissions Center. Priority deadlines are set for each quarter to allow 3-6 weeks for an application to be processed.

To receive financial aid, a student MUST complete the FAFSA
1. Review “7 Easy Steps to the FAFSA” at lowercolumbia.edu/finaid. To complete the application, a student will need:
   - Social Security Number.
   - Income statements, tax or estimated income tax, bank statement. Visit FAFSA to learn more.
   - LCC’s federal school code: 003782
2. Follow the instructions at www.fafsa.gov and complete the application.
3. Applicants should check their status at LCC’s Financial Aid Portal and upload any requested documents. Do this at lowercolumbia.edu/finaid. The applicant will use their Social Security Number and birth date (mm/dd/yy) to log in the first time.

How do I know if aid is approved? Get my money?
You will be notified of any financial aid awards through the Financial Aid Portal (see Step 3). Read your award notice carefully.
If you apply for Financial Aid and register for classes, we assume you are accepting your financial aid award. If you meet the priority deadline and qualify, your Financial Aid check will be mailed to you before classes begin.
If you decide not to attend, notify Financial Aid right away to cancel your award.
Review information about class changes or academic progress that might impact your award. Check with your advisor or at the Entry Center for support services to help you succeed in your classes.

Financial Aid Hours
Monday/Tuesday/Thursday 8 a.m. - 5 p.m.
Wednesday 11 a.m. - 2 p.m.
Friday 10 a.m. - 5 p.m.

Scholarships
Lower Columbia College awards over $250,000 in scholarships every year. The online process lets students apply for multiple LCC scholarships with a single application. There is no cost to apply. Scholarships are based on varied criteria, including:
- Program of Study – Nursing, Art, Automotive, Chemistry, Education and more
- Merit – Based on GPA (usually 2.0 to 3.5) or demonstrated community service or leadership
- Need – Demonstrated financial need based on federal guidelines
- General – Qualify for general awards with broad, flexible criteria
These funds can be used to pay for tuition, student fees, books and supplies. Some awards will cover other expenses such as transportation or childcare.

LCC Scholarship Night
Tuesday, January 14
6-7:30 p.m., Student Center
High school seniors and juniors and parents are invited. Learn how to find scholarships and how to write a good essay; plus other tips and tricks for Information will apply to any scholarship application with specifics about the LCC Foundation awards.

Delayed Tuition Payment Options
Need more time to pay your tuition? Here are three options:

Payment Plan: For a $30 fee you can enroll in a payment plan that charges your credit/debit card or bank account on a monthly basis. For information or to sign up, go to lowercolumbia.edu/costs-aid

Defer Your Tuition: Tuition is due the Friday after you register. You can defer your full tuition payment until December 31 by paying $25 of your tuition plus a $10 fee at the Cashier. Ask for a Tuition Deferment.

Waiting for your Financial Aid funds?
Apply for Financial Aid by the priority deadline November 21 for Winter Quarter 2014. If your file is complete, with all requested documents, you can register and make arrangements to delay tuition payment until your aid arrives. Apply for an “Administrative Hold” after you register but by December 12 at the Financial Aid Office.
If you miss either deadline, you will need to pay your own tuition to stay enrolled.
The new Regional University Center, located in the Alan Thompson Library at LCC, provides convenient options for residents of Cowlitz County, and surrounding counties, to earn bachelor’s degrees without relocating or a lengthy commute. It will also increase the number of local professionals qualified to fill supervisory and management positions with area companies.

The goal of the center is to increase the number of adults with bachelor’s degrees in Cowlitz and Wahkiakum counties. Currently, that number is half the state average.

**Talk with a university advisor**
Whether you’re a current LCC student, a high school senior or a community college graduate, explore your options to earn a bachelor’s degree by talking with an advisor. To schedule an appointment, stop by the Center or call 360.353.7800.

Four highly-respected universities have partnered with LCC to provide bachelor’s degree programs. Advising staff and faculty will be housed in the Center along with study areas and a high technology classroom designed to meet instructional needs, including WiFi access. The adjacent Learning Commons provides comprehensive library resources for students enrolled in the university partner programs.

TRANSFER STUDENTS

Save Time & Money At LCC

Students who begin a four-year degree at Lower Columbia College save tuition costs as well as room and board, if they live at home. Records show LCC students who transfer do well in their classes, earning GPA’s equal to students who begin college studies at the university.

The Associate in Arts Direct Transfer Agreement (AA-DTA) provides a smooth transition to upper division studies at a state public university. The new Washington 45 option allows LCC students to transfer after one year without losing any credits.

**Associate Degree Transfer Options**

Students who complete the AA-DTA at LCC are generally admitted with junior standing by all public universities in the state, some in Oregon and by most Washington private colleges. LCC also has agreements with bachelor degree-granting colleges for students majoring in business, engineering, education, science and other fields.

The LCC Transfer Center hosts representatives from universities and colleges on campus each quarter to meet with students planning to transfer. The Transfer Club coordinates road trips to various colleges and universities.

For more information about LCC transfer options and services for transfer students, visit: lowercolumbia.edu/transfer

**NEW Washington 45**

A student who completes courses selected from the categories listed below will be able to transfer and apply up to 45 quarter credits toward general education requirement(s) at any other public, and most private, higher education institutions in the state.

First Year Transfer List

- **Communications** (5 credits) – ENGL 101, ENGL 102
- **Quantitative and Symbolic Reasoning** (5 credits) – MATH 107, MATH 148 or MATH 151
- **Humanities** (10 credits in two different subject areas or disciplines) – PHIL 101, MUSC 105, DRMA 101, HIST 116
- **Social Science** (10 credits in two different subject areas or disciplines) – PSYC 100, SOC 101, POLS 101, POLS 202, HIST 117
- **Natural Sciences** (10 credits in two different subject areas or disciplines) – BIOL 100,* BIOL 160*, ASTR 101*, CHEM 110*, CHEM 121*, CHEM 161*, CHEM 162*, GEOL 101*.

*Natural Science lab courses.

- **Additional 5 credits** in a different discipline can be taken from any category listed above.

For transfer purposes, a student must have a minimum grade of C or better (2.0 or above) in each course completed from this list. Students who transfer Washington 45 credits must still meet the transfer institution’s admission requirements and eventually satisfy all their general education requirements and their degree requirements in major, minor and professional programs.
Learning Communities

Teamwork is a good approach to achieve success in sports, at work and in college. Lower Columbia College students who belong to study teams as part of a class or other organized program complete their courses and degrees more often and in less time than those who go it alone. The following programs of study are available this quarter for students who want to improve their chances of success at LCC.

**I-BEST**

*Fast track to a college certificate & job*

Many people who want to train for a new career also need to improve their skills in math, reading, and writing to find a job. The Integrated Basic Education & Skills Training (I-BEST) program provides hands-on training for high demand job fields, with an extra instructor to help with reading, writing, math, speaking and listening skills in the same class. You attend class with the same instructors and the same students to learn job skills and to earn college credit toward a certificate in one of five job fields. Students also spend 2-5 hours each week in study sessions with their classmates where they receive hands-on instruction dedicated to helping them succeed.

Special programs coordinator Jill Yates will help each student register for the classes they need. Contact her at 360.442.2584 or jyates@lowercolumbia.edu

**Business Technology**

This 4-quarter certificate program prepares graduates to work in an office setting. All credits can be applied toward the two year AAS degree. Classes meet each week in classrooms and/or private academic support labs.

- **BTEC 100** Computer Keyboarding
- **BTEC 101** Basic Word Processing and Formatting
- **BTEC 104** Introduction to Business Technology
- **BTEC 111** Word Processing I
- **BTEC 125** Filing
- **BTEC 148** Introduction To Outlook

**Early Childhood Education**

This one certificate and two-year degree program prepares graduates to work in preschool and childcare programs as early childhood education teachers and includes hands on training in the Home and Family Life Center.

- **ECED 204** Music and Movement for Young Children
- **ECED 220** Arts and Crafts for Young Children
- **ECED 260** Practicum IV/Professionalism
- **ECED & 105** Introduction Early Childhood Education
- **ECED 132** Infants/Toddler Care
- **ECED & 190** Observation/Assessment
- **EDUC & 130** Guiding Behavior
- **EDUC & 205** Introduction to Education w/Field Experience:DIV
- **TECH 088** Pre-College Math II
- **TECH 089** Pre-College Math II

**Health Occupations/Nursing Assistant**

LCC’s Nursing Assistant program provides the content and experience to prepare students to take the State of Washington Nursing Assistant certification exam. We only offer I-BEST Health occupations (HOC) in the fall and spring.

- **HLTH 100** Occupational Safety and Health
- **NURS 090** Nursing Assistant

**Manufacturing Occupations**

Learn the basic skills needed for entry-level jobs. This certificate provides a strong foundation in production, machining and welding processes providing access to many jobs in industries that use machine tools and fabrication processes to produce goods. This certificate also provides courses that can be applied to more specialized degrees and certificates.

- **BLPT 150** Machinist Blueprint Reading
- **MASP 072** Machine Shop Support II
- **MASP 111** Machine Shop I
- **TECH 078** Pre-College Math I
- **TECH 079** Pre-College Math I
- **WELD 072** Welding Support II
- **WELD 105** Related Welding I
Genes in Argument: From Food to Forensics

Monday, Wednesday & Friday, 9 a.m.-12:10 p.m. • Instructors: Katrina Fuller, Nicole DiGerlando

From genetically modified food to DNA profiling – genetic advances are changing the way we live. Learn to grasp the latest developments in genetics, explore ethical issues and make informed decisions for yourself through good research techniques. You’ll earn 5 credits to satisfy a natural science lab requirement while earning 5 required English credits!

Sign up for:
BIOL 150 IS, Human Genetics and Society, 5 credits
and
ENGL 102 IS, Composition II, 5 credits

FEARLESS FEMALES AND FEMMES FATALES

Monday, Wednesday & Friday, 9 a.m.-12 p.m. • Instructors: Joan Herman, Courtney Shah

The ideal class schedule: complete 10 credits in two classes that meet in a single time block, three days per week. Explore a great topic and really get to know your instructors and classmates.

Examine women’s lives in fact and fiction. Readings may include the evocative Toni Morrison, the provocative Kate Chopin, the harrowing tales of Anne Hutchinson and Harriet Jacobs, and the rebellious Elizabeth Cady Stanton. Provides 5 credits of Humanities, 5 credits of Social Science and fulfills the Diversity Requirement for a transfer degree. Prerequisite: ENGL 100.

Sign up for:
ENGL 140, Introduction to Women Writers:DIV, 5 credits
and
HIST& 215, Women in U.S. History:DIV, 5 credits

Power & Politics: The Good Life

Monday-Thursday, 9 a.m.-11:10 a.m. • Instructors: Hiedi Bauer, David Benson

Power & Politics combines English Composition and Introduction to Political Science into a single 10-credit course. The course aims to empower students by improving their ability to think about sources of power in their lives. We consider contending ideas about human nature, politics, and the good life.

The course will explore such questions as: Are humans by nature good or evil? Are we built to compete or cooperate? How do those in power shape our understanding of the world around us? What is necessary for a good life, how should things important for the good life be distributed, and who should decide?

Sign up for:
ENGL 098, College-Ready English I, 5 credits
or
ENGL 100, College-Ready English II, 5 credits
or
ENGL& 101, English Composition I, 5 credits
and
POLS& 101, Intro to Political Science, 5 credits
Online learning at Lower Columbia College offers flexibility for those with work, family and other responsibilities to complete college courses and even a degree without a regular commute to campus.

**Online** - Students complete all course work via the internet.

**Hybrid** - Courses blend classroom sessions with online participation and learning. For example: students go online, read lessons, take a practice quiz; then come to a face-to-face class and practice what they learned online.

The online learning process requires the same commitment as a traditional course. Staying up with the class and completing all work on time is vital. Once a learner gets behind, it is very difficult to catch up.

The majority of LCC online and hybrid courses are facilitated through the learning management system, Canvas.

*These courses do not use Canvas
“Online learning makes it easy to go to school because it doesn’t interfere with your life”

“Just do it!” says Jessica Harder to anyone who is unsure about taking a college course online.

The Castle Rock native began attending Lower Columbia College during her senior year in high school. For many classes, she attended lectures in an LCC classroom but went online to access materials and to complete her assignments. Those hybrid courses made the switch to fully online classes a seamless process.

Before finishing her degree program at LCC, Jessica had an opportunity to move to Hawaii. Thanks to the Associate in Applied Science in Business Management online option, the move did not mean starting over at a new college. “Whenever I had questions, my instructors were always willing to help me without making me feel like I was an inconvenience,” Jessica said. She was even able to participate in group projects with her classmates.

DO Try This At Home! Take Biology Lab Class Online.

LCC transfer students can now complete a five-credit natural science lab class completely online, and by using their kitchen as a home science lab. Biology 100, Survey of Biology, (BIOL& 100) will be offered, for the first time, Winter Quarter 2014 as an online course.

This course provides a general overview of biology, the science of life. It provides a survey of the fundamental life processes by which organisms live, grow, reproduce, and interact with their environment.

There are no pre-requisites for BIOL& 100. It fulfills a natural science lab course requirement for the Associate in Arts DTA degree and transfers to Washington State University and the Evergreen State College. Portland State University accepts the credits for the course but does not recognize it as fulfilling the PSU science requirement.

Laboratory exercises will be completed entirely online and by doing some experiments at home. Students will also take virtual field trips to Mono Lake, California, and to the rainforests of Central and South America.

Advantages of taking the course online, especially during Winter quarter, include the option to complete weekly tasks at times that are convenient for student schedules and a way to avoid commuting on icy winter roads for those in rural areas. Louis LaPierre, LCC biology instructor, will teach the online course.

**What If It Snows?**

LCC doesn’t operate school buses, so we may be open when local schools have closed due to ice, snow, or other conditions.

If the campus remains open during inclement weather, personal safety and good judgment are the foremost considerations. You decide whether to come to campus or stay home.

**Here’s how to find out if campus is open or closed:**

**Emergency Text Notifications** — Sign up to receive closure and other emergency information by text message on your mobile phone. Just text ‘follow LowerCC_Arets’ to 40404. A confirmation will be sent to your mobile phone. You’ll receive emergency text messages as they are issued. Regular text messaging charges apply.

**Media** — Check local TV or radio stations. If the campus closes due to severe weather, the media will be notified by 6 a.m. for day classes, and 2 p.m. for evening classes. If the campus closes for any other reason, the media will be notified immediately.

**Web** — Check lowercolumbia.edu for current closure status. Emergency information will also be posted on twitter.com/lowercc and facebook.com/LowerColumbiaCollege

**Telephone** — Call the LCC Message Line at 360.442.2000.

Evening classes meeting once a week will take their final exam at the regular class time during finals week. Evening classes meeting more than once a week will take the final exam at the regular class time on whichever day during finals week the class agrees upon.

Students are not required to take final exams for more than two classes on a single day. Students may petition the Vice President for Instruction for other final examination arrangements if such a conflict arises, after first contacting the instructor. Exam priorities shall be based on class meeting day order first, then meeting time.

Final exams will be administered on the day designated on the final exam schedule. To deviate from the scheduled day, approval must be obtained from the Vice President for Instruction. Time changes, unanimously approved by the class, are acceptable.

For any classes that conflict with other final exams, please talk to your instructor for more information.

Buying Your Books

The Lower Columbia College Bookstore makes it easy for you to get your textbooks. Here’s how:

• Stop by the Bookstore (in the Student Center) with your schedule and the staff will find your books for you. Some used books are available for most courses so, if possible, shop early. Students now have the option of renting many of their books as well.

• Buy books online at lowercolumbia.edu/bookstore and pick them up in-store or have them shipped to your home. Textbooks will be available online beginning November 27th.

Bookstore Hours

Monday-Thursday 7:30 a.m.-5:00 p.m.
Friday 7:30 a.m.-2:00 p.m.
*We will be open until 6 p.m. on January 6th and 7th.

LCC's Cooperative Education Program enables students to earn college credit through supervised, work-based learning experience. This program integrates theories, concepts, and methods studied in the classroom with practical skills gained in the workplace. Students may earn one credit for every 33 hours of approved work experience. There is a limit of 1-5 credits per quarter, depending upon specific degree requirements.

To enroll in a Cooperative Education program, students must have prior permission from an instructor in the appropriate program and the Work Based Learning Manager, Dani Trimble. For more information, contact Dani at 360.442.2622, email dtrimble@lowercolumbia.edu or stop by the Career Center, Admissions Building 120.

Cooperative Education 288 students must attend a mandatory orientation either 3-4 p.m. or 5:30-6:30 p.m. on December 12, 2013. Orientation will be held in the Career Center, Admissions Building 120.

Cooperative Education 288 students must also enroll in a 1-credit Cooperative Education 289 seminar. The seminar focuses on work-related topics that complement the student's work-based learning experience. The seminar meets weekly on Thursdays from noon until 1 p.m. in MAN 149. A $13.70 lab fee will be charged for all 288 classes.

U.S. consumers are more value conscious than ever following the recent economic recession.

The good news for residents of Washington State is that community colleges offer value (high quality education for affordable tuition) and job security. (College graduates earn higher wages and are less likely to be unemployed, according to the U.S. Labor Department.)

It’s well known that students who live at home and complete lower division studies at Lower Columbia College save substantial costs, $20,000 per year or more.

But did you know that Washington students who transfer from a two-year college to a four-year school do just as well as those who begin studies at a university? This was confirmed by a recent study that looked at 20,499 bachelor degree students who graduated from Washington universities in 2011.*

Transfer Students Equal In All Majors
Community college transfer students made up 40 percent of the 2011 bachelor degree graduates in the study. They graduated with virtually the same number of credits as those who started as freshmen at a university—an indicator of the smooth transfer between two- and four-year colleges. Their GPAs were similar as well.

Transfer students graduated in all subjects, including:
- 47% of all business majors
- 46% of all health field majors
- 35% of all STEM majors (science, technology, engineering, and math)

These are the same career fields projected to offer strong employment opportunities in our region over the next decade.

Opening Doors For Struggling Students
Remedial education opened the door to a college education for many students, first at a community or technical college and then at a university. Of the transfer students who graduated with a bachelor’s degree:
- 59% took at least one remedial course
- 43% graduated in a STEM field
- 53% graduated in business

According to state employment projections, over 70% of job openings in the next 10 years will require training beyond high school. Employment in occupations that require an associate degree is expected to increase more rapidly than employment in any other education or training category.

For students seeking careers that require a bachelor’s degree, Lower Columbia College’s Regional University Center now offers a local option to complete studies in four degree fields right on the local campus. See page 14 for more information.

* Study produced by the State Board for Community and Technical Colleges (SBCTC) in cooperation with all Washington public four-year colleges and universities.

LCC’s personal approach allowed Colin to move successfully from a small high school to more demanding college life. After two years of preparation, he’s realizing his dream of studying business and playing basketball at the university level.

Molly was homeless with only an eighth grade education before enrolling at LCC. She quickly earned her GED Certificate and is now a college student. She also made the honor roll and has her own apartment.

Kate was home-schooled prior to attending LCC. Serving as a tutor and in student honor society also helped her excel in academics. This fall her writing was selected for publication in a prestigious national magazine, achieving a childhood dream to become an author.

Sean went right to work after high school but soon wanted a more challenging career. Supportive faculty helped him gain confidence to master his courses and earn a $30,000 annual scholarship to pursue advanced studies in environmental engineering.

Individualized Certificate

The Individualized Certificate Program (ICP) provides an option for students to participate in a specialized training program combining LCC courses and a cooperative work experience with a local employer.

Students will be expected to attend a classroom seminar to build a career portfolio while learning to conduct informational interviews with professionals in their field. Students will learn how to search for future employment and build an employment portfolio.

Students may earn a Certificate of Proficiency (45+ credits) by completing all credit requirements established for their specialized program.

For more information please contact the Work Based Learning Manager, Dani Trimble, at 360.442.2622 or email dtrimble@lowercolumbia.edu

Learning Commons

Learning Commons Self-Paced Learning modules are independent study courses the student completes with assistance from instructional aides and tutors.

Students must attend an orientation on one of the first two days of the quarter, January 6 and 7. Orientations will be held at 9 and 11 a.m. and 1 p.m. in the Learning Commons, located on the ground floor of the Library.

Math classes at LCC are offered in three different formats to meet a variety of student needs:

- Standard math classes, where a lecture is presented and homework assigned.
- Math Achievement Center classes, where students work on their own with the assistance of tutors and an instructor. See the next page.
- Online classes

It is very important that students take the Placement Assessment before enrolling in math classes. This test helps to ensure that any prerequisites are met and that students enroll in the proper level of mathematics. The Placement Assessment is given in the Entry Center. Call 360.442.2311 for more information.

Online homework and electronic textbook for all MATH 078/079, 088/089, and 098/099 provided by Pearson Education. To resolve technical problems, please contact Technical Support for MyLabsPlus at 1.888.883.1299 or helpdesk@lowercolumbia.mylabsplus.com

Please note: All mathematics prerequisites must be met with a grade of C or better. See your advisor or refer to the LCC catalog for more information.

### Medical Assistants: Prepare Online to Meet Mandatory Certification

Certification is now required of Medical Assistants. LCC offers an online course, MEDA 205 Certification Review, to help candidates prepare for the exam.

Through the LCC Medical Assisting Program, students develop the knowledge and skills necessary for employment in clinical and administrative-support areas of medical clinics. The program prepares graduates to sit for the national Certified Medical Assistant exam.

For information about the Certification Review course, go to lowercolumbia.edu/programs

Nursing

The Lower Columbia College Nursing Program is committed to providing excellence in nursing education that encompasses critical thinking, competencies in the role of provider of care, manager of care and member in the discipline of nursing, with and emphasis in life-long learning. Nursing is a demanding and rewarding profession that requires strong communications skills, excellent problem-solving abilities, focused concentration when performing a task, attention to detail, the ability to work well with others, and extensive knowledge of the sciences.

Students interested in a nursing career can find information about LCC’s nursing programs at www.lowercolumbia.edu/programs. Students who have been admitted to the nursing program should contact their advisor for course and registration information.

Nursing Assistant (NURS 090) is an 8-credit course that provides students the content and experience to give basic nursing care to patients under the supervision of a licensed nurse. Please contact Bev Ylen, Nursing and Allied Health Program Assistant, 360.442.2860 for course information and to register.

LCC Offers New High School Diploma Program For Adults

Adults, age 21 and older, have a new, low-cost option to earn a high school diploma through a program now available at Lower Columbia College. The HS21+ program is a comprehensive, competency-based approach tailored to adult learning styles, with both day and evening classes on campus and in the community. Students earn credit toward a high school diploma both through classroom studies and by demonstrating knowledge gained in the workplace, life experiences and military service. Previous high school and college studies also count.

LCC instructors and staff assess students’ experiences to measure any gaps in education and work readiness and then create a plan to help them complete studies needed for their diploma. HS21+ students are eligible for the Basic Skills tuition rate of $25 per quarter for classes needed to earn a diploma. Students may begin studies at any time. To get started, contact the Transitional Studies Department at 360.442.2580.

LCC began offering the HS21+ program in Summer 2013. Thirty-two students earned high school credits and 12 completed studies to graduate with their high school diploma. Even better, 10 of the graduates began college studies this fall.

Randy Bailey and Meghan Griffith proudly display their high school diplomas earned through LCC’s new HS21+ program which began Summer Quarter 2013. Like many adults returning to school, they overcame learning obstacles by working together and encouraging each other to reach this milestone. Both have continued their studies in college programs at LCC this fall.
CORPORATE & CONTINUING EDUCATION

Continuing Education at Lower Columbia College assists individuals and business/industry to meet their personal, professional and corporate education and training needs by offering non-credit classes to the community. These classes are offered both on-site and online, to accommodate the needs of our students.

Business & Professional Development

LCC offers a variety of services supporting workforce development and customized training through the Corporate & Continuing Education Department. Working with area businesses, industries and agencies, LCC offers Work Keys profiling and assessment services to provide employers, employees and job seekers with direct information regarding the skills needed to succeed in various jobs. Employees and job seekers can measure their skills and compare them to skill profiles for specific jobs. Follow-up training using KeyTrain and other tools is available.

Employees and job seekers can document skill proficiency by taking the three assessments on the National Career Readiness Certificate (NCRC) – Applied Mathematics, Reading for Information and Locating Information. The NCRC is a portable, evidence-based credential that certifies essential skills needed for workplace success.

LCC also offers computer skills testing, typing tests and other tests to measure the skill level of employees and applicants. Support for companies looking for specialized training is also available. LCC frequently works with employers to provide or arrange customized training in a variety of areas, including job-specific Spanish language courses, quality assurance, business computer applications, customer service, and other areas critical to organizational success.

Companies throughout Washington and Oregon require applicants to take the WorkKeys tests for employment. Did you know you can prepare for these tests by participating in internet delivered training using KeyTrain? KeyTrain offers pre-tests, learning modules and quizzes to prepare you for the WorkKeys tests. You can practice your Applied Math, Reading for Information or Locating Information skills in order to take the tests measured on the National Career Readiness Certificate or you can take the tests required by many area manufacturers, county agencies or local school districts. Cost is $20 per topic or enroll for the entire KeyTrain WorkKeys series for $75. Call 360.442.2600 for details.

Kepner Tregoe Problem Solving and Decision Making Training

The Kepner-Tregoe Problem Solving and Decision Making process is actually four distinct processes, each designed to address a specific type of situation:

- **Situation Appraisal** is used to separate, clarify, and prioritize concerns. When confusion is mounting, the correct approach is unclear, or priorities overwhelm plans, Situation Appraisal is the tool of choice.
- **Problem Analysis** is used to find the cause of a positive or negative deviation. When people, machinery, systems, or processes are not performing as expected, Problem Analysis points to the relevant information and leads the way to the root cause.
- **Decision Analysis** is used for making a choice. When the path ahead is uncertain, when there are too many choices, or the risk of making the wrong choice is high, Decision Analysis clarifies the purpose and balances risks and benefits to arrive at a solid and supported choice.
- **Potential Problem Analysis** is used to protect actions or plans. When a project simply must go well, risk is high, or myriad things could go wrong, Potential Problem Analysis reveals the driving factors and identifies ways to lower risk.

Training sessions will take place on February 20 and 21 and March 13 and 14 from 8 a.m.-5 p.m. in the Heritage Room (located in the Administration Building). Training price: $995. Contact Mary Harris, 360.442.2602 for more information.

MEET THE INSTRUCTOR!
Christa Harden started her career in the creative arts as a commercial photographer in Seattle and worked with notable photographers such as, Jennifer Loomis and The Plane Picture Company. After pursuing a Bachelor’s Degree from the University of Washington she decided to move to Los Angeles and make an attempt at the fashion photography industry. Through a series of photo editing and web design jobs she ended up as an Art Consultant and found her true passion for graphic design. Not long after moving to Washington she met her husband and design partner Mikalae Harden. Together they have been working at Battle Ground Printing for the last three years and continue to improve their skills in all areas of design, including photography and digital manipulation. They approach this Photoshop class from the perspective of professionals who have a daily use for the program, and aim to help students make the most of the software.

MEET THE INSTRUCTOR!
Working in a variety of mediums, Max Wade is a vibrant arts instructor with a passion for educating, teaching, and the community. His core visual sensibilities are from extensive study of Renaissance methods, and his work is focused on time and its passage, reflection, and the subtle balance between desires for solitude and interaction. Max trained for three years at the Cornish Institute in Seattle, Washington and completed his BA at The Evergreen State College in Olympia, Washington.

Since June 2010 Max has been teaching with LCC, inviting students to join him on his artistic journey in Drawing Essentials, Painting Techniques, Mask Making and Colored Pencil Technique. Max also leads our Continuing Education day trips. He’s taken students to Hood River, the Mt. Angel Oktoberfest, and the Portland Art Museum just to name a few!

Drawing Essentials
The focus in this course is on the development and refinement of time-tested drawing techniques. We will investigate and introduce techniques of light and shadow, perspective, proportion, visual measuring, and texture. Along with essential techniques, students will be introduced to a wide variety of tools and surfaces for drawing, both traditional and unconventional. This is a great course of study for relatively new artists who wish to establish a solid drawing foundation, and artists with experience who want to refine specific aspects of their work.
MAN 109 (Max Wade) $75
CLCE 018 A 2400 M 1/6-3/17 5-7 p.m.

Painting Techniques
Gain control of the art of painting. We will take painting from palette layout to finished works through the investigation of tools, material handling, color mixing, and traditional techniques. The class is designed for those who are embarking on painting as well as those with experience who want to refine their skills and techniques. Although acrylics will be preferred, students with experience who work in oils are encouraged to use that medium.
MAN 109 (Max Wade) $75
CLCE 018 B 2405 W 1/8-3/5 5-7 p.m.

Drawing for the Next Generation
Take part in drawing essentials for Middle and High school students. Develop and refine a sound foundation in drawing techniques. We will investigate and experiment with a variety of traditional drawing techniques including perspective, value, proportion, texture, and composition. Students will learn methods for determining subject matter, as well as maintaining sketch journals. Students will be encouraged to develop their own style and narrative. Ages 12+ DTV 201 (Max Wade) $50
CLCE 027 C 2406 T 1/7-3/4 5-7 p.m.

Your course will remain active for 120 days and take approximately 20 hours to complete.

Skagit River Bald Eagles
Enjoy nature’s splendor as few have seen it. Each winter, up to 300 Bald Eagles congregate in the Skagit Preserve. These magnificent and endangered birds are accustomed to seeing only the occasional riverboat in their protected habitat, so sightings are frequent. With wingspans of up to seven feet, the eagle is truly majestic from close range. You'll float calmly and comfortably with other enthusiasts in astoundingly beautiful scenery, watching our National Symbol feeding on the banks, soaring above or perched only a few yards away. Guides are experienced eagle watchers. All equipment is included. Join us! (Wildwater River Guides) $69

Meet Our Career Specialists

Anna Brodt has been assisting students with their education and career goals and helping workers look for employment for a number of years. Like many LCC students, she has personal experience retraining for a new job after time in the work world. Anna calls on her real life and work experience, along with two associate degrees and a bachelor’s degree in Business, to effectively help visitors to the Career Center in their job searches.

Steve Chapman earned an associate’s degree from LCC in 1997 and is a lifelong resident of the area. Steve holds a B.S. degree in Psychology from WSU Vancouver. He has 12 years of experience providing services and consulting in the area of employment. Much of his work has involved helping individuals overcome barriers to employment, including mental health and physical barriers, ex-offenders, dislocated and older adults re-entering the workforce.
